

# SPECIAL INFORMATION FOR AIRCRAFT EXHIBITORS

## 1. Registration of aircraft on display

An overview / list of exhibiting aircraft will be published together with the index of exhibitors in the middle of June. So, we kindly ask you to register your exhibiting aircraft via the Online Service Center (OSC). Visitors inform themselves in advance on our website. So, take the chance and attract attention.

**Deadline: June 02, 2021**

## 2. Dimensions and features of the hall doors

All our halls are provided with 3 double wing doors; one at the gable end and one at each long side of the halls. These doors have a clear width of 6.40 m. The individual wings can only be opened to the outside up to an angle of 90°. Every wing has a width of 3.43 m. Thus, it is only partly possible to "swivel" the aircraft into the hall. Please provide appropriate devices (e.g. dollies, etc.).

However, please note that the southward doors of hall A3, A4 and A7 as well as the northward door of hall B5 are an exception. These doors are designed as sliding doors. Furthermore, the southward doors of hall A3 and A4 have a clear width of 22 m; the southward door of hall A7 and the northward door of hall B5 have a clear width of 15 m.

## 3. Ground Handling Service

Messe Friedrichshafen offers in cooperation with **Maschinenbau Zaglauer / Flyer Truck** the Flyer Truck Ground Handling Service free of charge. In order to have appropriate aircraft towing equipment available please contact [info@flyertruck.de](mailto:info@flyertruck.de).

**Deadline: June 18, 2021**

## 4. Ground Power Service

Messe Friedrichshafen offers in cooperation with **Red Box International** free continuous and start power for aircraft on display. For further information please see order form ground power in the OSC. Orders need to be placed until below mentioned date. Later orders can only be accepted on availability.

Power connection need to be ordered separately.

**Deadline: May 14, 2021**

## 5. Special information for the aircraft exhibitors in A halls and hall B5

### Urgent recommendation:

Aircraft exhibitors in A halls and hall B5 are asked to have all aircraft intended for display available in Friedrichshafen **until Friday July 9, 2021 at the latest**. Since exhibitors already start to settle up their stand at Wednesday July 7, 2021, you might expect handicaps in buildup. Therefore, it will help to avoid delays in aircraft positioning. Furthermore, be aware of the hall door dimensions (please see item 2).

**Landing fees at Friedrichshafen Airport as well as other flight operating costs are to be paid separately at the airport.**

## **6. Special information for the aircraft exhibitors on the static display:**

If you deliver your aircraft intended for display on Tuesday July 13, 2021 or later please be prepared for obstructions and delays.

That is why we recommend flying the aircraft to Friedrichshafen **before Tuesday July 13, 2021**.

## **7. Customer demonstration flights**

During the trade show exhibitors will be given the opportunity to organise demonstration flights for prospective customers (no public demonstration flights). These exhibitors are requested to keep a second aircraft ready at the airport.

In order to make sure that the required arrival and departure times for your customer demonstration flights are available please use the slot booking platform of Friedrichshafen Airport. Slots can be booked 2 weeks in advance on the website of Friedrichshafen Airport [www.bodensee-airport.eu](http://www.bodensee-airport.eu).

For AERO Friedrichshafen 2021, there is a PPR regulation for arrival from Wednesday, July 14, 2021 until Saturday, July 17, 2021. A slot must be booked online beforehand. Landing for pilots flying to Bodensee Airport without PPR slot during AERO, July 14. - 17 2021 will not be possible.

Starting and landing fees as well as parking fees and any additional flight related costs must be paid by the exhibitor. For more information please contact Friedrichshafen Airport.

During the trade show, pilots arriving by ultralight aircraft and powered glider may use nearby airfields such as Markdorf, Leutkirch or Mengen without needing a slot or prior permission.

## **8. Emergency parachutes**

We point out that the emergency parachutes of exhibited aircraft must be mounted prior to official hours and must stay in the same condition during the trade show in order to avoid injury to body or health and damage to the exhibition halls or third-party property. Messe Friedrichshafen assumes no liability in case of loss.
